Jordan, with its spectacular desert scenery, archaeological treasures and Dead and Red Seas, is an ideal destination for a short but varied trip. Petra is indisputably one of the most amazing sites in the world. Hidden for centuries, it wasn't until a Swiss explorer 'discovered' it in 1812 that the 'Lost City' finally became known to the western world. Wadi Rum too is one of the most stunning desert-scapes in the world and we spend a night camping out under the stars. A trip to Jordan would not be complete without a soak in the salty waters of the Dead Sea and a chance to swim or snorkel over the coral of the Red Sea.

Day-by-day itinerary

- Day 1:** Fly to Amman; transfer to Amman Hotel.
- Day 2:** Drive to the Dead Sea and float in the salty water; explore Madaba's mosaics.
- Day 3:** To Petra via the castle at Kerak along the dramatic King's Highway.
- Day 4:** Full day to explore the incredible 'rose red city' of Petra.
- Day 5:** To Wadi Rum including a 4WD excursion; overnight in the desert under the stars.
- Day 6:** To Aqaba; free afternoon to snorkel, swim or relax.
- Day 7:** Full day in Aqaba; free to relax.
- Day 8:** Return to Amman; afternoon tour to Roman site of Jerash.
- Day 9:** Fly to London.

How this holiday makes a difference

Throughout your holiday you'll be staying in locally owned hotels, and this combined with using outstanding local guides ensures money goes directly back into local communities.

You'll also be staying with a local Bedouin family in Wadi Rum, and all money paid at archaeological sites is used for restoration and maintenance of these beautiful historic treasures.

We have at our UK offices worked to reduce our carbon footprint through a reduction of energy use and energy conservation measures. We also actively reduce the waste produced by having active reduction and recycling policies in place. We run annual staff workshops on Responsible Tourism.

Global warming is a reality and to help you make a difference by reducing the carbon dioxide that is produced when you travel we offer a chance to carbon balance your flights. We encourage all our clients to do this and do so for all our staff travel. Go on do your bit!
